Subject: comments? RE: WA NSTEPS Report
Date: Friday, May 25, 2018 10:27:00 AM

Hi All,

Just checking in to see if Chad and Chad have provided comments to Diane and Mike on the draft final report, particularly the executive summary? Would it be helpful to set up a call to discuss comments on the report?

Thanks so much,

Rochelle

Subject: WA NSTEPS Report

Chad et al. –

Attached please find two documents: 1) a response to comments report version for you to see how we addressed your comments, and 2) A clean next draft version.

We made some substantial changes in response to your requests. Most notably you will see that we added an executive summary that hits the main points (all highlighted for easy viewing) and recommendations from the study, per your request. This is not something we have done frequently, and we may be a little rusty on the right language to hit the target. Therefore, please give it a careful read and provide edits as needed. Hopefully it is close to what you had in mind. We also added all the requested edits and especially added more detail on the diatom metrics in the Appendix, as requested.

I apologize for the delay, we had some contract changes, spring breaks, etc.

Thanks again for your patience.

Respectfully –

Mike
